1. Introduction

In its 3rd Edition, the “Arab Forum for Renewable Energy & Energy Efficiency”, which will be held back to back to the Executive Bureau of the Arab Ministerial Council of Electricity, offers our Sponsors a unique opportunity to achieve their objectives in a direct and cost-effective manner. Whether you aim to network with decision makers, or expand your brand reach, your target will be met.

By sponsoring the “Arab Forum for Renewable Energy & Energy Efficiency”, your company will gain exposure with a highly targeted audience, as well as the chance to network with policy decision makers and international key players to promote your corporate image, products & services and stand out as a leader in the regional/international Energy industry.

2. General Information

2.1. Name of the Forum

The 3rd Arab Forum for Renewable Energy and Energy Efficiency (ARFREE)

2.2. Theme

Towards Competitive Energy Markets

2.3. Date, venue

1-2 June 2016, Intercontinental City Stars, Cairo, Egypt

2.4. Attendees

The Arab Forum for Renewable Energy and Energy Efficiency is a Ministerial level Forum, several Electricity and Energy related Ministers from the Arab region will attend the Forum and open the exhibition. In addition, high level governmental officials and heads of international organizations will attend, speak and lecture at the event.

2.5. Patronage:

The Forum is a high level Ministerial international/political/ technical forum held every two years under the patronage of H.E. the Secretary General of the League of Arab States. It accommodates high level governmental officials, Energy and Electricity Ministers, Heads of International and Regional Organizations, CEOs of top Business Firms and Companies in the Energy fields, and experts from the Arab region and the globe.

2.6. Objective

Energy markets are dramatically changing with new economic perspectives, environmental constraints, technology upscale and evolving trends that are reshaping the global energy map. The Arab region has always been one of the most important energy players, controlling more than 30% of oil and gas reserve and locating in the solar belt wherein the future energy resources are abundant.

The 3rd Arab Forum for RE&EE addresses the current challenges towards future energy market transformation and transition in the Arab region, discussing the future role and impact of RE&EE development at economic, environmental and social levels. The Forum will also highlight the current most recognized positions and strategies towards the integration of RE&EE in the future Arab Energy mix.

2.7. Main Topics

- Policy making perspectives for RE&EE Market expansion in the Arab region
- Upscaling RE&EE markets and the capacities of the financing institutions for de risking Investments in the Arab region
- Technology deployment for economic scale of local content component and local manufacturing
- Pan-Arab Sustainable Energy Strategy 2030, The Regional Policy and Market Transformation
- Mark Drivers and Smoothing the Transition towards Future Energy Mix
- RE&EE technologies and the enabling factors for vigorous markets
